

## **Oniqua Completes Successful 2014 Americas User Forum in Denver**

*Tennessee Valley Authority, Nebraska Public Power District, American Electric Power, BHP Billiton, Newmont Mining, Rio Tinto among the many industry leaders in attendance at annual event to discuss issues, challenges and solutions relating to optimizing MRO spares and materials*

**DENVER – Nov. XX, 2014** – Oniqua Intelligent MRO, a leading provider of analytics-based MRO technology and services that optimize MRO materials and spares management, today announced it recently hosted its annual Oniqua User Forum – Americas, in Denver, Colorado.

The annual event brings together Oniqua employees, customers, partners and industry luminaries to network and discuss current approaches, challenges and solutions in the area of MRO materials and spares management.

Oniqua customers in attendance included representatives from some of the world's leading asset-intensive companies, including (but not limited to):

- American Electric Power
- BHP Billiton
- Rio Tinto
- Los Angeles Metropolitan Transportation Authority
- Drummond Company
- Tennessee Valley Authority
- Nebraska Public Power District
- Newmont Mining
- Rio Tinto
- Stillwater Mining

Speakers at this year's event included Oniqua personnel, partners and customers, such as Andy Hill, co-founder and CEO, Oniqua; Jonathan Cooper, Manager, Inventory Analysis & Reporting, Tennessee Valley Authority; Curtis Barton, Principal Advisor, Rio Tinto; and Bill Belgium, Inventory Control Manager, Nebraska Public Power District.

The conference agenda included over a dozen interactive workshops, customer case studies and presentations conducted by Oniqua personnel and customers. Informational sessions included updates from Oniqua on its enhanced cloud subscription offerings, the use of artificial intelligence to determine criticality, and the new company brand.

Oniqua provides Intelligent MRO (maintenance, repair and operations) capabilities that are transforming the way Oil & Gas, Mining and Utilities companies manage their capital-intensive assets. Our unique cloud-based offering combines the world's most advanced MRO analytics technology with analyst services, consulting, master data cleansing and industry expertise to optimize the performance of materials management and operations & maintenance activities. Oniqua does the "heavy lifting" on behalf of customers so they can achieve rapid benefits in the form of reduced waste and costs, minimized risks, greater efficiencies and smarter decisions across their MRO operations. Oniqua is proud to serve many of the world's largest energy and resources companies, including BHP Billiton, ConocoPhillips, Dow, BP, Newmont Mining, Rio Tinto, Freeport McMoRan, Tennessee Valley Authority, Nebraska Public Power District and many others.

Oniqua is owned by international oilfield support services company ASCO. The company employs over 2,500 people in four key regions, namely the Americas, Europe, Middle East & Africa and Australasia. The company currently has sales in excess of \$1bn. Through Oniqua and its other businesses, ASCO offers a wide range of services including inventory and materials management, offshore supply base management, onshore oilfield support, environmental services, personnel and training, advisory and technical services as well as fuel services. ASCO's global headquarters is based in Aberdeen.
