Oniqua Announces that Oniqua Analytics Solution 6 is Certified by SAP to Run on SAP NetWeaver®

Solution integrates with the SAP NetWeaver technology platform to optimize mission-critical spares and materials management for asset-intensive industries

BRISBANE, AUSTRALIA – Feb. 17, 2015 – Oniqua Pty Ltd., known as Oniqua Intelligent MRO, today announced that Oniqua Analytics Solution 6 (OAS 6) is certified to run on the SAP NetWeaver® technology platform. Oniqua is a leader in the optimization of MRO (maintenance, repair and operations) processes for asset-intensive industries.

The SAP® Integration and Certification Center (SAP ICC) has certified that Oniqua Analytics Solution 6 is “Powered by SAP NetWeaver.” Solutions certified to run on SAP NetWeaver can be more quickly and easily integrated into SAP solution environments. Customers can benefit from improved interoperability with SAP applications, and choosing an SAP-certified solution can also help reduce overall IT investment costs and risks.

OAS 6 integrates with SAP NetWeaver and other solutions to optimize mission-critical spares and materials management for asset-intensive industries, helping customers reduce costs while maximizing uptime and service levels.

“We are delighted to announce this successful achievement of OAS 6, now certified to run on SAP NetWeaver,” said Carlos Fairgray, executive vice president of Technology and Innovation, Oniqua Intelligent MRO. “The ability of OAS 6 to run on SAP NetWeaver has proven, and will continue to prove, highly beneficial to our current and future customers.”

Oniqua provides “Intelligent MRO” capabilities that are transforming the way oil and gas, mining and utilities companies manage their capital-intensive assets. The company provides a unique cloud-based offering, which combines highly advanced MRO analytics technology with analyst services, consulting, master data cleansing and industry expertise to optimize the performance of materials management and operations/maintenance activities.

Oniqua is proud to serve many of the world's largest energy and resources companies, including BHP Billiton, ConocoPhillips, Dow, BP, Newmont Mining, Rio Tinto, Freeport McMoRan, American Electric Power, Tennessee Valley Authority, Nebraska Public Power District and many others.

Oniqua is owned by international oilfield support services company ASCO. The company employs over 2,500 people in four key regions, and offers a wide range of services including inventory and materials management, offshore supply base management, onshore oilfield support, environmental services, personnel and training, advisory and technical services as well as fuel services.
